

## Notice of New Required Immunizations for HS Students (01/14)

Parents of current juniors:

The Indiana State Dept. of Health has released the new requirement for a second MCV4 for all seniors for the 2014-15 school year. This is a shot for meningitis that was likely given to your students at age 11. The need for a booster is critical for this age group to prevent a devastating disease.

Please contact the student's doctor as soon as possible to schedule an appointment before school begins in July 2014. If your student has had 2 doses, please obtain a copy of updated shots that reflect the 2 doses of this vaccine.

Please send a copy of the proof of immunization to the HS main clinic. If you have questions or need a copy of your student's shot record you may call Peg Stanish, Supervisor of Health Services, at 862-2411 to arrange to pick up a copy of the record. Please allow 24 hours for your request to be completed. Thank you so much.
